

# ACHIEVING NET ZERO IN OIL & GAS

*Bureau Veritas helps its clients to measure emissions, identify hotspots and reduce emissions in accordance with their sustainability targets.*

**Measure:**  
We assess carbon footprint at site level and identify hotspots.

**Implement:**  
We support development of a net zero roadmap to take concrete actions and reduce emissions.

**Monitor:**  
We evaluate the effectiveness of emissions-reduction projects and consolidate improvements results.

**Communicate:**  
We provide clear, reliable, verified information to enable clients' transparent communication about company progress toward net zero.

**Offset:**  
We help mitigate the impact of hard-to-eliminate emissions by assessing carbon offsetting programs.
